VICTORY BACOLOD CHURCH FACILITIES, EQUIPMENT & RESOURCE REQUEST POLICY

Standard Operating Procedure for the Use of Church Facilities, Equipment, and Shared Resources

1. PURPOSE

The church provides facilities, equipment, furniture, and shared resources for the purpose of supporting worship, ministry, discipleship, administration, and other activities of the church.

Because these resources are shared among different ministries, there needs to be a clear and consistent way of requesting and scheduling their use.

This policy establishes a simple process for requesting, reviewing, approving, scheduling, preparing, and using church facilities and resources.

The purpose of this process is to:

- Provide ministries with a clear way to request facilities and resources.
- Prevent scheduling conflicts.
- Ensure that facilities and equipment are properly prepared.
- Establish clear responsibility for church property.
- Help the church steward its facilities and resources well.
- Allow pastors and ministry leaders to make informed decisions about the use of shared church resources.

This process is intended to **facilitate ministry, not hinder it**.

2. SCOPE

This policy applies to all church ministries, departments, staff, volunteers, members, and approved external users who request the use of church facilities, equipment, furniture, or shared resources.

It covers the following:

Facilities

- Main Hall / Sanctuary
- Conference room
- Kids Church facility
- Music Room
- Chapel
- Offices
- Lobby and common areas
- Other designated church spaces

Furniture

- Chairs
- Tables
- Podiums
- Stands
- Partitions
- Other movable furniture

Equipment

- Sound equipment
- Microphones
- Projectors
- Screens
- Televisions / displays
- Cameras
- Lighting equipment
- Technical equipment
- Extension cords and related equipment
- Musical Instruments

Office Resources

- Printers
- Photocopiers
- Shared office equipment
- Other designated office resources

3. GUIDING PRINCIPLES

3.1 Ministry First

Church facilities and resources exist to support the mission and ministry of the church.

3.2 Good Stewardship

Everything the church owns is entrusted to us for ministry. Facilities, furniture, and equipment should therefore be handled with care and used responsibly.

3.3 Order

A clear request process allows different ministries to plan properly and minimizes conflicts over shared spaces and resources.

3.4 Accountability

The person or ministry requesting a facility or resource is responsible for its proper use during the approved period.

3.5 Fairness

No ministry should assume that a facility or resource is available simply because it has been used in the past. Shared resources remain subject to availability and the needs of the wider church.

3.6 Approval

Submitting a request does not mean that the request has been approved.

A facility or resource is considered officially reserved only after approval has been given and the request has been confirmed by Facilities Personnel.

10. TURNAROUND TIMES

Requests should be submitted as early as possible.

The following are recommended minimum lead times:

Type of Request	Recommended Lead Time
Routine room request	3 days
Chairs / tables / furniture	3 days
Office equipment / resources	2–3 days
Standard equipment request	3 days
Sanctuary / Main Hall	7 days
Special ministry event	14 days
Large event involving several facilities or teams	14–30 days
External / special use	14 days

These timeframes are intended to provide sufficient time for review and preparation. They do not guarantee approval.

11. LAST-MINUTE REQUESTS

The church recognizes that ministry needs sometimes arise unexpectedly.

Last-minute requests may be considered when circumstances require them.

Approval will depend on:

- Facility availability
- Existing reservations
- Equipment availability
- Personnel availability
- Setup requirements
- Technical requirements
- Impact on other scheduled activities

A last-minute request does not automatically override a previously confirmed reservation.

12. PRIORITY OF REQUESTS

When requests conflict, the following general priority should apply:

1. Church-wide Activities

Examples:

- Sunday worship services
- Church-wide gatherings
- Congregational meetings
- Major church events

2. Regular Ministry Activities

Examples:

- Kids Church
- Campus ministry
- Small groups
- Discipleship programs
- Regular ministry meetings

3. Special Ministry Activities

Examples:

- Conferences
- Trainings
- Ministry events
- Special programs

4. Individual or Member Requests

5. External / Non-Church Use

These priorities provide guidance when resources are limited. They do not mean that every request in a lower category will automatically be denied.

The Minister may make the final determination based on the circumstances and the overall needs of the church.

13. SCHEDULING CONFLICTS

When Facilities Personnel identify a conflict, they should not independently decide which ministry receives priority.

The conflict should be brought to the Minister for direction.

For example:

> Ministry A has a previously scheduled conference in the Main Hall. Ministry B submits a request for the same space.

Facilities Personnel should identify the conflict, provide the relevant scheduling information, and refer the matter to the Minister.

The Minister makes the final ministry decision.

This ensures that Facilities Personnel remain focused on administration and logistics while ministry priorities remain under pastoral leadership.

14. RECURRING REQUESTS

Recurring ministry activities may be scheduled for an agreed period.

Examples:

- Weekly campus gatherings
- Regular small groups
- Recurring staff meetings

Recurring reservations should still be recorded on the official facility calendar.

A recurring reservation does not create permanent ownership of a room or facility.

Church-wide events and other significant ministry activities may require adjustments to recurring schedules.

When a recurring activity is cancelled, the ministry should notify Facilities Personnel so the facility can be made available to others.

15. FACILITY USE

The requesting ministry is responsible for ensuring that:

- The facility is used only for the approved activity.
- Furniture is handled properly.
- Equipment is used responsibly.
- Food and drinks are limited to approved areas.
- Trash is disposed of properly.
- Equipment is turned off when appropriate.
- Lights and air-conditioning are turned off when required.
- The room is returned to the agreed arrangement.
- Any damage or problem is reported.

The general expectation is:

> *Leave the facility ready for the next ministry.*

16. EQUIPMENT USE

Certain equipment may require additional instructions or an equipment checkout process.

For controlled or portable equipment, Facilities Personnel may record:

- Equipment name
- Quantity
- Person responsible
- Ministry
- Date/time released
- Date/time returned
- Condition before use
- Condition upon return

Equipment should not be transferred to another person or ministry without informing Facilities Personnel.

Only authorized or properly trained persons should operate equipment that requires technical knowledge.

17. DAMAGE, LOSS, OR MALFUNCTION

Any damage, loss, or malfunction should be reported to Facilities Personnel as soon as possible.

The requesting ministry should not attempt major repairs or modifications without authorization.

Where damage or loss results from negligence, misuse, or unauthorized use, the matter may be referred to the Minister or appropriate church leadership for further action.

The primary purpose of reporting is to ensure that:

- People remain safe.

- Church property is protected.
- Equipment can be repaired or replaced promptly.
- The next ministry is not adversely affected.

18. CANCELLATIONS AND CHANGES

If an approved request is cancelled, postponed, or significantly changed, the requestor should notify Facilities Personnel as soon as possible.

A new review may be necessary if there are significant changes to:

- Date
- Time
- Location
- Number of participants
- Equipment
- Setup requirements

Prompt notification allows the church to make the facility or equipment available to other ministries.

19. EXTERNAL USE

Church facilities and equipment may be made available to individuals or organizations outside the normal ministry structure when approved by church leadership.

External use should have:

- A designated church contact or sponsor
- Appropriate pastoral approval
- Clear dates and times
- Clearly defined responsibility for the facility
- Any necessary security or supervision
- Appropriate cleaning and restoration arrangements

External users should not be given unrestricted access to church facilities or equipment.

20. OFFICIAL FACILITY CALENDAR

Facilities Personnel shall maintain the official church facility calendar.

The calendar should contain:

- Facility / room
- Ministry / organization
- Event
- Date
- Start time
- End time
- Setup time
- Status
- Special requirements

The official calendar should be the primary reference for facility availability.

A ministry's own calendar, group chat, announcement, or verbal arrangement does not constitute an official reservation.

A reservation becomes official only after:

Minister Approval → Facilities Confirmation → Calendar Entry

21. POLICY EXCEPTIONS

There may be circumstances when an exception to this policy is appropriate.

Exceptions should be referred to the Minister for consideration.

Facilities Personnel should not routinely bypass the established process without pastoral direction.

The purpose of an exception should be to address a legitimate ministry need, not to create a separate process for a particular ministry or individual.

22. REVIEW OF THE POLICY

This policy should be reviewed periodically by church leadership and Facilities Personnel.

Feedback from ministries should be considered when determining whether changes are needed.

The process should remain:

Simple enough to use.
Clear enough to understand.
Consistent enough to be fair.
Flexible enough to serve ministry.

APPENDIX A

APPROVAL MATRIX

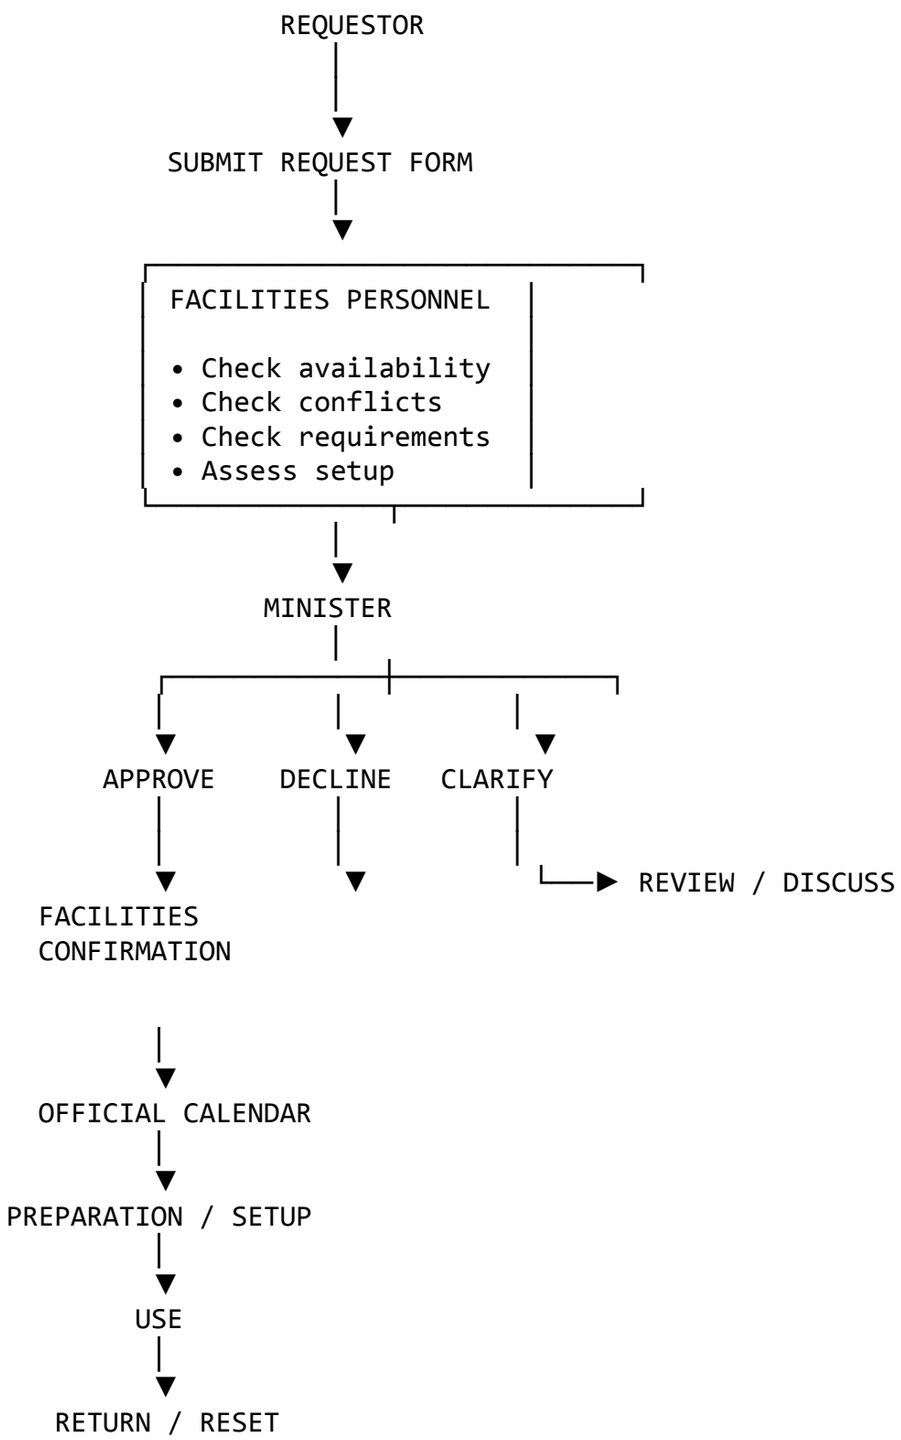

The approval process remains the same for all requests:

Stage	Responsible Party	Primary Responsibility
1	Requestor	Submit complete and accurate request
2	Facilities Personnel	Check availability, logistics, conflicts, and requirements
3	Minister	Provide final ministry approval
4	Facilities Personnel	Confirm request and schedule facility

VICTORY
Honor God. Make Disciples.

APPENDIX B

SIMPLE PROCESS FLOWCHART

VICTORY
Honor God. Make Disciples.

APPENDIX C

The church should introduce this process with the following understanding:

Our facilities and resources are shared resources that exist to support the ministry of the church. As the number of ministries and activities grows, we need a clear and consistent way to manage their use.

This process is intended to make ministry easier, not harder. It gives every ministry a clear way to request what it needs, gives Facilities Personnel the information necessary to prepare properly, and gives our pastors the opportunity to provide appropriate ministry oversight.

The process is intentionally simple:

Requestor → Facilities Personnel → Minister

The requestor identifies the need. Facilities Personnel checks the practical and logistical considerations. The Minister provides the final approval. Facilities Personnel then confirms the request and coordinates the preparation.

Our goal is to steward the facilities, equipment, and resources God has entrusted to the church while making them available and useful for ministry.

VICTORY
Honor God. Make Disciples.
